ARE YOU 50 OR OLDER?

HAVE YOU BEEN SCREENED FOR COLON CANCER?

DO YOU KNOW YOUR SCREENING OPTIONS?

SCREENING OPTIONS INCLUDE:
- Colonoscopy
- Take home screening
- Virtual Colonoscopy

Talk to your doctor about on time colon cancer screening. The best test is the one that gets done.

Learn the signs and symptoms and understand your family history.

Great job at looking out for your health!
NOW TELL OTHERS TO GET SCREENED.
GET EDUCATED. GET SCREENED.

Many patients report no symptoms prior to diagnosis, be aware of any changes in your digestive habits. Colorectal cancer symptoms include:

- Rectal bleeding
- Change in bowel habits
- Blood in your stool
- Abdominal or low back pain
- Unexplained weight loss
- Anemia

There are many screening tests available for colorectal cancer, including several inexpensive options that can be done in the privacy of your own home. Talk to your doctor about the test that is right for you.

- Colonoscopy
- Take home stool testing (DNA, FOBT, FIT)
- Virtual Colonoscopy
