AGE IS NOT A FACTOR.

By 2030, colon cancer is projected to be the #1 CAUSE OF CANCER DEATH for adults under 50.

ANGEL
Diagnosed stage IV at 29
Passed away at 32
**WHAT CAN YOU DO?**

**Know your risk factors.** A family history of colon cancer or polyps and some medical conditions including Crohn's disease or ulcerative colitis means you should be screened before 45.

**Be an advocate for your health.** Pay attention to changes in your body and any symptoms you experience. Talk to your doctor. Seek a second opinion if needed.

**Colorectal cancer symptoms include:**
- Blood in your stool
- Change in bathroom habits
- Fatigue
- Anemia
- Unexplained weight loss
- Persistent cramps or low back pain
- Feeling bloated
